

# Six Sigma: Using Data to Ask the Right Questions<sup>®</sup>

## Individualized Training Methods

This course is designed and delivered with your company in mind. We tailor the material we use to the needs of your organization and provide real application and results.

## Evidence Based Questions

We will demonstrate for your team the correct way to use data (evidence) and research to ask the right questions.

OrgScience<sup>SM</sup>

## TRAINING OBJECTIVES

Designed to engage students with real examples of data challenges and complex problems.

## UNIQUE APPROACH

Evidence-based curriculum focused on understanding the power of data analysis.

## GLOBAL PERSPECTIVE

Scholar / Practitioners use experience to guide the learner through this course. Our perspective is global in nature. From banking, military, healthcare, and educational perspectives, we embrace the power of simplifying complex issues .

## INSTRUCTOR

**DR. RON  
SHEFFIELD**

**P.M.P., SIX SIGMA  
BLACKBELT**

Dr. Sheffield is a certified Six Sigma Blackbelt (SSBB) and certified Project Management Professional (P.M.P.). He is a lecturer at Christopher Newport University and The George Washington University, philanthropic advocate for under-served cultures, and member of an international research team focused on global business culture.

Ron has taught data gathering and dissemination skills for over 20 years within the corporate setting. A specialist in Big Data extraction and translation, Dr. Sheffield is skilled at simplifying complex data for practical applications.
